Dear Colleague,

**Freedom of Information Act 2000 and cost pressures for
homecare providers**

This letter makes a formal request under the Freedom of Information Act for details of the percentage price increases your authority has awarded to the independent and voluntary sector homecare agencies with which you have contracted since 1st August 2007.

We also ask you to convene meetings for your providers and senior members of your staff to give full consideration to the cost pressures facing providers and writing to providers across the UK to advise them of this request.

You will be aware of UKHCA's continued focus on the inadequacy of fees paid by local authority purchasers. Across the country we see a year-on-year reduction in price in real terms which has a highly damaging impact on providers' ability to comply with their contractual obligations and to reward careworkers with pay and grave consequences for the capacity of the independent homecare sector, which already provides 53% of state-funded care in Wales.

considerable, and include the following:

- Increased fuel prices;
- An additional 4 days' statutory leave entitlement (effective from October 2007);
- Additional regulatory requirements on quality assurance and the on going cost

- A general reduction in 'contact time' with service users, reducing providers' opportunities to generate income;
- Increasing costs for premises, telephony and business rates;
- Recruitment costs to replace staff in a sector with a high turnover;
- A Consumer Price Index running at 4.4% on the 12 months to July 2008;
-

In relation to increased fuel prices, a recent survey conducted by UKHCA showed that 64% of homecare providers (employing 20,457 careworkers) anticipate being forced to turn down packages of care in the next three months 'wholly' or 'mainly' because travel costs have become uneconomic. 78% of employers reported that fuel prices had a 'major' or 'severe' impact on their ability to retain their workforce in the previous three months.

The information we request from you is as follows:

1. Under the Freedom of Information Act 2000, we ask for certain details of contracts meeting the criteria outlined in Appendix 1. The information
 - a. as hard copy by using the proforma given in Appendix 3 and returned in the pre paid envelope supplied, or
 - b. as an Excel spreadsheet which can be downloaded from www.ukhca.co.uk/pdfs/council_rate_increases.xls and returned to policy@ukhca.co.uk.
2. Under the same Act, the gross average hourly cost of homecare services¹ for
 - a. Your in-house homecare service and
 - b. Your independent and voluntary sector providers.

Section 10 of the Freedom of Information Act requires public bodies to supply information within 20 working days from receipt of a request. We asked for rates

do not, therefore, expect this request to be declined on the grounds that it would "prejudice commercial interest" or that it is a "trade secret" under Part II of the Act.

In addition to the freedom of information request above, we also ask you for:

3. A statement as to your authority's proposals to support local homecare providers over the next 12 months to 30th August 2009 during a period of

¹ Gross average hourly cost should be calculated as the total spend total hours of service delivered during the same time period.

I hope that the information is self-explanatory, however if you require further

Yours sincerely,
